EDUCATION

Vellore Institute of Technology

B.Tech, CSE – Cyber Security and Digital Forensics — CGPA: 8.36

Bhopal, MP

Aug 2023 – May 2027

Sri Sathya Sai Vidya Vihar

Higher Secondary — 12th: 85% 10th: 92%

Indore, MP

May 2023

TECHNICAL SKILLS

Languages and Technologies: Python, C++, Java SQL, HTML, CSS, Linux, Git, GitHub

Cybersecurity Tools: Wireshark, Autopsy, Steghide, OWASP ZAP

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks

EXPERIENCE

Cyber Cell Intern

May 2026 – Jun 2026

Crime Branch, Indore

- Assisted in cybercrime investigations involving phishing, online fraud, social media misuse, and digital evidence collection.
- Processed and documented cybercrime complaints, maintaining detailed records and supporting the preliminary assessment of reported incidents.
- Responded to cybercrime helpline calls, provided assistance to victims of online fraud, and coordinated with relevant teams for effective complaint resolution.
- Prepared case documentation, technical reports, and evidence summaries while ensuring compliance with cybercrime investigation procedures.

Cyber Security Intern

Feb 2025 – Mar 2025

The Red Users

- Analysed live network traffic with Wireshark, detecting and documenting intrusion attempts and potential data-exfiltration events across monitored sessions.
- Identified and reported XSS and SQL injection vulnerabilities using OWASP ZAP and WebGoat; produced remediation-focused reports for both technical and non-technical stakeholders.
- Hardened server configurations by implementing firewall rule sets and security controls, reducing attack surface across assessed environments.

PROJECTS

File Metadata Analyser & Threat Intelligence Platform | *Python, Flask, PostgreSQL, VirusTotal API v3*

- Built a full-stack Flask web app that extracts file metadata, computes MD5/SHA-256 hashes, and classifies files via VirusTotal API v3; persists structured results in a normalised PostgreSQL evidence schema.

Cancer Classification Using Gene Expression Data | *Python, Machine Learning, Scikit-learn, Data Analysis*

- Built a machine learning model for cancer classification using gene expression data to predict tumor types and support accurate early-stage diagnosis.

Cipher Suite | *Python, Tkinter*

- Implemented six classical cipher algorithms for encryption and decryption with a responsive Tkinter GUI, input validation, and modular architecture demonstrating core Python OOP patterns.

CERTIFICATIONS

Google Cybersecurity Professional Certificate – Google, 2026

Cybersecurity Attack and Defense Fundamentals – EC-Council, 2026

Blockchain and its Applications – IIT Kharagpur, 2025

Introduction to Generative AI Specialization – Google, 2024

Introduction to Cybersecurity Essentials – IBM, 2024

AWARDS & HONORS

Reliance Foundation Undergraduate Scholarship (2023) – Nationally competitive merit scholarship selected from hundreds of thousands of applicants across India.

ZS Campus Beats Tech Challenge (2026) – Ranked in the top 100 teams nation-wide
